WHAT IS A QRG – QRG stands for Quick Reference Guide. Quick Reference Guides are short 1-8 page documents that provide concise practical information and advice on specific topics. Sometimes known as “cheat sheets” quick reference guides are designed for users who know the material or task but need something in front of them to remind them of the steps.

WHO THIS GUIDE IS FOR – The Missouri Housing Development Committee (MHDC) awards yearly grants from the Missouri Housing Trust Fund (MHTF) for agencies. The grant types include Operating Funds (OF), Emergency Assistance (AE) or Housing Assistance (HA). AE and HA grant type program data is captured, maintained and reported from HMIS. This guide assist HMIS users whose agencies have been awarded these grants in using the features of HMIS that support MHTF functionality.

This guide is useful for Case Managers who will be entering MHTF supported clients in HMIS.

This guide is useful for System Admins who will be generating MHTF reports.

2018 MHTF FUNDED PROGRAMS

<table>

</table>
ADDING CLIENTS TO A MHTF PROGRAM
Enter clients the same way you would for non-MHTF program enrollments, using the *HMIS Intake* workflow. Be sure to enroll family members into the program as well; this assures that the report family member totals are accurate.

CLIENTS WITH HOUSING LEASE ASSESSMENTS
If you are tracking a monthly lease for the client your next step is a Housing Lease Assessment. Once the workflow is completed, you will create one additional assessment, Housing Lease Assessment. To access this assessment, go to left navigation menu *Assessments* and select *Housing Lease Assessment*.

Select Add New button

Fill in all required fields and other pertinent housing detail for this client and click the Save button.
You are now finished with the Housing Lease Assessment.

**ADDING SERVICES TO A CLIENT ENROLLED IN A MHTF PROGRAM**

There are up to 10 designated services available for MHTF projects, depending on grant type. The HMIS system only lists the services eligible for the program your client is enrolled. The following table lists current MHTF services options.

<table>
<thead>
<tr>
<th>Service Types</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>MHTF - Emergency Home Repair</td>
<td>MHTF - Rental Assistance</td>
</tr>
<tr>
<td>MHTF - Hotel/Motel</td>
<td>MHTF - Rental Deposits</td>
</tr>
<tr>
<td>MHTF - Last Month's Rent</td>
<td>MHTF - Utility Arrears</td>
</tr>
<tr>
<td>MHTF - Mortgage Assistance</td>
<td>MHTF - Utility Assistance</td>
</tr>
<tr>
<td>MHTF - Rental Arrears</td>
<td>MHTF - Utility Deposits</td>
</tr>
</tbody>
</table>

Add the service(s) for your client the same way you would for a non-MHTF program enrollment. The key difference you will see when adding the enrollment is the addition of a **Payee** and the **Account** fields; both are required fields. Enter the **Payee** for this service. Leave the **Account** field default **Non-HUD Funder**.

**MHTF REPORTING**

The MHTF reporting option is only available for role of System Admin. The **MHTF Report** is listed as an option from the sub-menu for **Reporting**.
Complete the report parameters as required. Leave the **Account** field default of **Non-HUD Funder**. Leave the **County(ies)** field default to All. Select the option **Include Client Names** only for those times when the report will be used internally (i.e. verify monthly data).

It is recommended that at least once a month you run this report to assure information is being captured accurately.

**COMMON REPORT ISSUES**

- **County missing from report record.**
  The report pulls from the client’s address history based on the service date to obtain the county. This might not be the current address that you see in the client demographics and often the older addresses did not have the county field populated.

  To resolve:

  From the left navigation menu **Case Management and Family and Contacts**
Click on Address History icon

Select the address record where the service date is less than the oldest address End Date and add the county name to that address. You will also have to re-verify the address.

In this situation, where the service was created before updating the address you need to refresh/recapture the correct address information for the existing service record(s) for this client. Go in to the edit service record and make a “mock” change, like retype the dollar amount and the click save. This triggers Caseworthy to recapture the latest address info.

- **Family totals (Number of Adults and Children) not reporting.**
  Each family member needs to be enrolled in the MHTF program to be counted for the report.
  To resolve:
  Go to the program enrollment for the **HoH** and click on Gear Wheel and select **Member**
Select the Add/Edit Members button. Choose the family members you want to include. Important: family member enrollment dates must either fall between or be equal to the enrollment begin and end dates for the HoH.
ADDITIONAL INFORMATION
Each year as new grants are awarded the agencies will work with MARC to assure proper setup of MHTF programs and services. For this or other support please reach out to MARC by opening a helpdesk ticket: http://www.kcmetrohmis.org/helpdesk.htm
